• Data Structures & Algorithms
• Artificial Intelligence

RESPONSIBILITIES

EXECUTIVE MEMBER

At CSSE & IEEE-SB at MMMUT Gorakhpur

FOUNDER

At **Webitofy** – A freelancing website that provides low-code development services to businesses.

ACHIEVEMENTS

• Accomplished solving questions over 300 on **LeetCode** and 120 on **Codechef** showcasing strong problem-solving skills.
• Independently managed projects of **multiple real businesses**, demonstrating initiative and project management prowess.

EXTRACURRICULAR

• Coordinated the organization of a coding contest,  **Code Bugger** in association with **Coding Ninjas**
• Playing Chess & active involvement in organizing society events like **Technokratos** & **Techsrijan**.

EXPERIENCE

FREELANCING | LOW CODE DEVELOPER, PART-TIME

June 2020 – Current | Remote

- Contributing expertise to diverse projects for **multiple businesses**.
- **Leading the end-to-end** low-code development and crafting impactful & fully-customisable websites on Shopify & WordPress.
- Proficient in freelance graphic design, **consistently delivering** high-quality visual assets to maintain brand identity across projects.

LEARN SMASHER EDUTECH LLP | JAVA PROGRAMMER, INTERN

June 2023 – July 2023 | Remote

- Successfully completed a dynamic 1-month remote internship at Learn Smasher, **actively contributing** to Java projects.
- Applied my Java expertise in **developing and enhancing projects**, including ATM Simulation, Task Management, Employee Management, and Download Manager.
- **Implemented** problem-solving skills & acquired hands-on experience in Java desktop application development.

PROJECTS

QUICK QUIP | FULL-STACK SHORT URL & QR CODE GENERATOR APP

Tech Used: React, Node, Express, MongoDB, Tailwind CSS

- Architected and developed a comprehensive & **scalable application** with URL shortening, QR code generation features, and a modern UI.
- Used best coding practices & **implemented custom middlewares** ensuring clean & modularized code and data integrity.

GRIHA MILAN | PLATFORM TO FACILITATE REAL-ESTATE EXPERIENCE

Tech Used: React, Firebase, Tailwind CSS

- Engineered **dynamic listing** features, allowing users to create, update, and manage property listings effortlessly.
- Crafted an interactive interface, elevating user experience with a modern design aligned with **industry standards**.
- Integrated Firebase authentication to guarantee **data security** and user **authentication integrity**.

SPRING SPRINT | PRODUCTIVITY APP FOR MANAGING TASKS

Tech Used: React, Java, Spring Boot, Hibernate, Postman, SQL

- Directed the full-stack development, emphasizing a **smooth flow**, dynamic frontend & **robust data management**.
- Conducted thorough testing to validate **optimal performance** and ensure the functionality of CRUD operations.

LIBA FASHIONS LLC | ECOMMERCE WEB APP FOR FASHION BOUTIQUE

Tech Used: Shopify, HTML, CSS, JS

- Spearheaded eCommerce website design and development on **Shopify** and **tested thoroughly** for intuitive user experience.
- Collaborated with the **marketing team** to implement their instructions, ensuring seamless UI/UX.
- Single-handedly brought this project to life, from **conception to execution**, demonstrating exceptional initiative and self-reliance.
